2008-2009 After School Care and Enrichment Program

Daily After School Care

2:30 p.m.—6:00 p.m. Grades K-6 Every Day

The Digital Discovery Center is a high quality after school program which is fun and age appropriate. The environment is safe and nurturing and run by experienced teachers. We include a variety of opportunities for young children to explore computer technology, filmmaking, photography, and more traditional arts, crafts and literacy activities. Stop motion animation, building with LEGO Technics and programming LEGO robots captivate the older children. Younger children love to build with basic LEGOS and are eager to move beyond just playing computer games to learning how to use computers creatively

• LEGO's & K'NEX—Build with a Buddy!

Come use our amazing collection of LEGO and K'NEX-pieces to create imaginary cars, trucks, buildings, space vehicles, and anything else you can think of. Build with your friends and meet other Legomaniacs. If you can imagine it, you can build it.

• Digital Media—Video, Music, Stop-Motion Animation

Create short animated films using LEGO pieces or clay figures on specially designed sets. Write your own script, add special effects, and your own soundtrack with voice narration and music. See our website for examples. Learn how to record music on a computer or create a song from scratch using software loops. Finally, burn your creations to a DVD or CD and transfer them to your iPod!

Watch our videos on the Internet!

www.youtube.com/ddc2000

• LEGO Robotics

Build and program your own awesome robots using the LEGO® Mindstorms™ Robotics Invention System. Learn about robotics concepts through teamwork and problem-solving challenges. Compete with other teams on our specially designed game boards!

COST & SCHEDULING

The Digital Discovery Center closely follows the Avon Lake public school calendar. Avon Lake school buses will drop at our Center. You can schedule one or more days per week. Our After School Care Program begins at 2:30 PM and lasts until 6:00 PM. Arrival times can vary. Tuition is based on the actual number of days scheduled per week, and ranges from \$20 for one day per week to \$70 for 5 days per week. Siblings receive a 10% discount.

Throughout the year we often schedule Tuesday, Wednesday or Thursday evening classes. These classes begin at 6:00 PM and last an hour. Each class runs for 4 weeks and costs \$80. First month's tuition is due upon enrollment. Siblings receive a 10% discount.

REGISTRATION

Email steve@digitaldiscoverykids.com or call 440-933-3782 for registration forms or more information. Forms can also be downloaded from www.digitaldiscoverykids.com.

About Us

The Digital Discovery Center is an exciting part of Pembroke Kids Child Development Center, owned by local Avon Lake residents Steve and Andrea Caris. Andrea is the Director of Pembroke Kids, a thriving mixed-age preschool that has just relocated to a brand new building on Pin Oak Parkway in Avon Lake. Steve manages the after school program. For the last fifteen years he has developed innovative technology education programs in independent schools. He is a veteran teacher with 30 years experience.

Program

The Digital Discovery Center provides children with hands-on access to sophisticated technology. Creativity is encouraged! Robotics, digital filmmaking, photography, and other forms of digital media are exciting new forms of technology and communication that captivate children and challenge them to develop their creative and problem solving skills. Our after school enrichment program is individualized and focuses on the interests of each child. We try to keep things fresh and exciting, and allow students to explore a number of areas in depth. Homework assistance is always available, and time is set aside for outside activities.

Why are your kids doing the same old things after school this year?
